LETTER OF RECOMMENDATION

To Whom It May Concern,

I am pleased to recommend **Adeoye Emmanuel Boluwatife**, who recently completed their Students Industrial Work Experience Scheme (SIWES) programme with Lagos Data School.

During the internship, the student demonstrated a strong willingness to learn, professionalism, discipline, and commitment to assigned tasks. They participated actively in practical training and gained valuable exposure to **Data analysis, SQL, Power BI, Python programming**.

The student was receptive to instructions, worked well with others, and demonstrated the ability to apply newly acquired knowledge to practical tasks and projects. Their dedication, positive attitude, and willingness to improve throughout the programme were commendable.

We are confident that the knowledge, practical experience, and professional exposure gained during the SIWES programme will contribute positively to their future academic and career development.

I therefore recommend **Adeoye Emmanuel Boluwatife** for future academic, internship, and professional opportunities without reservation.

Should you require any further information, please feel free to contact us.

Yours sincerely,

For: Abuja Data School
